MATIAS SINNOTT

BACHELOR'S DEGREE IN MULTIMEDIA DESIGN

ABOUT ME

💻 I am a Bachelor in Multimedia Design (UNLP, 2017–2021) with over 5 years of experience as a UI/UX Designer · WordPress Developer · Product Designer.

🧑‍💻 I specialize in user-centered web design and development, with a strong focus on WordPress (Elementor, WooCommerce), as well as Unbounce, Webflow, Tiendanube, and Shopify. I use Figma for interface design, prototyping, and user flows, ensuring responsive, scalable, and conversion-oriented solutions.

⚡ I integrate my experience in marketing automation (HubSpot, Klaviyo, Zapier), project management, and team leadership, connecting design with business strategy to drive growth, lead generation, and digital performance.

🎨 I also have complementary experience in Branding, Digital Retouching, Community Management, and Hosting Management, which allows me to deliver comprehensive solutions for projects of different scales.

CORE SKILLS & TOOLS

- **UI/UX** Design (Figma, prototyping, wireframes, user flows)
- **Web Development** (WordPress, HTML, CSS, JavaScript)
- **CMS** & Web Platforms (Webflow, Shopify, Tiendanube, Unbounce)
- **Marketing Automation** (HubSpot, Klaviyo, Zapier)
- **AI** Tools for Design & Development (ChatGPT, Claude, Google AI Studio, Higgsfield)
- **Project Management & Team Leadership**
- Languages: **Spanish (Native), English (Advance C1)**

EDUCATION & TRAINING

NATIONAL UNIVERSITY OF LA PLATA (UNLP)

2017 - 2021 : Bachelor in Multimedia Design

I graduated as a Bachelor in Multimedia Design in 2021 from the National University of La Plata (UNLP) with a GPA of 7.80.

- Graduation Thesis *(Rating 10)* (**Farmer Dash):**

The project consisted of developing a prototype that integrates both a physical and a digital interface, allowing users to remotely manage and monitor their farm in real time.

BIG SCHOOL (AI COURSE)

2026 - AI Course

- Master ChatGPT, Projects, and GPTs from scratch
- Build apps and websites from scratch with Vibe Coding
- Automate tasks with AI

PLATZI (ONLINE PLATFORM)

2022

- Figma Course
- Advance Figma Course

TRAINING (IFAD)

2014 - Curso Diseño Gráfico

- Fundamentals of graphic design and Adobe software.
- Photoshop
- Ilustrator
- InDesign

WORK EXPERIENCE

HEAD OF WEBSITES AND MULTIMEDIA DESIGN (PROJECT MANAGER)

Jan 2025 – Dec 2026 - Beige Video (USA)

In the Marketing department, I lead the web design and development area, focusing on performance, lead generation, and conversion optimization.

Key responsibilities and achievements:

- Design and development of landing pages in WordPress/Unbounce, optimized for performance and ad campaigns.
- Creation of interfaces and prototypes in Figma (wireframes, UI kits, user flows).
- QA and performance optimization (technical SEO, PageSpeed, responsive design).
- Implementation of marketing automations with HubSpot, Zapier, and Klaviyo for workflows and reporting.
- Project management and coordination of tasks in Asana with marketing and development teams.
- Supervision and leadership of a multi-brand digital team (Beige Fleet, Beige Studios, Beige Weddings, Beige Creators, etc.).
- Creation and management of email marketing campaigns in Klaviyo and HubSpot.

WEB BUILDER

May 2022 – Jan 2025 - Luxury Presence (USA)

I worked as a Web Builder at Luxury Presence, a leading company in digital solutions for the luxury real estate sector in the United States and Canada. I was responsible for both visual design and technical implementation of custom websites, working remotely with an international team from the USA, the Philippines, and Latin America, under 100% English communication.

Key responsibilities and achievements:

- Design and development of custom websites for luxury real estate agents and companies.
- Migration and redesign of existing websites, improving look & feel, navigation, and performance.
- Technical implementation in a custom modular CMS, with additional customization through HTML/CSS.
- Development under responsive design principles, ensuring consistent experiences across desktop, tablet, and mobile.
- Application of SEO on-page strategies (semantic structure, accessibility, loading speed, content hierarchy).
- Creation of UX/UI-based interfaces, maintaining visual consistency and brand guidelines.
- Collaboration in QA processes, documentation, and workflow improvements within a multidisciplinary team.

WORDPRESS DEVELOPER & WEB DESIGNER

Sep 2021- may 2022 - Mar Del Plata Digital (ARG)

I was part of the Mar del Plata Digital team as a web designer and developer specialized in WordPress, working on tourism and e-commerce projects for clients across Argentina.

Key responsibilities and achievements:

- Development of tourism websites for destinations such as Costa Atlántica, Córdoba, Mendoza, and San Juan, prioritizing clear navigation and responsive design.
- Creation of custom e-commerce stores with WooCommerce for industries such as fashion, veterinary supplies, and independent professionals.
- Application of UX principles, SEO optimization, and digital copywriting to improve visibility and conversion.
- Participation in the complete development cycle: prototyping in Figma, visual design, WordPress development, and maintenance.
- Use of HTML/CSS and Adobe Creative Suite to deliver scalable and functional websites aligned with brand objectives.
- Focus on attention to detail, semantic structure, and visual consistency.

WEB DEVELOPER & COMMUNITY MANAGER

Jun 2020 - July 2021 - Clarté Comunicación (ARG)

At Clarté Comunicación, I worked in a hybrid role between web development and digital content creation, collaborating on projects aimed at strengthening brand presence through websites and social media.

Key responsibilities and achievements:

- Development of websites in WordPress, with custom implementations using HTML, CSS, and JavaScript.
- Design of visual assets for social media (posts, stories, carousels) using Photoshop and Canva, aligned with each brand's identity.
- Creation of content calendars and copywriting for Facebook and Instagram.
- Scheduling and management of posts via social media management platforms.
- Coordination of integrated digital campaigns, combining design, copywriting, and communication strategy to increase visibility and engagement.

FREELANCE - UI/UX DESIGNER · WORDPRESS DEVELOPER · PRODUCT DESIGNER

De 2015 - Present (ARG, USA, SPA)

As a freelance professional, I design and develop websites and landing pages with a focus on usability, performance, and conversion. I collaborate with agencies and individual clients, managing projects end-to-end and also providing branding and visual content support to strengthen brand identity.
